

Product Information Sheet

NH₄Cl

A109
Ammonium Chloride

Synonym: N/A
CAS: 12125-02-9
Formula: NH₄Cl
Molecular Wt: 53.49

Properties

Form: Powder
Appearance: White Crystalline
Application: Plant Macronutrient
Solubility: Water
Typical Working Concentration: Varies with application, should be determined by end user.
Storage Temp: Room Temperature
Other Notes: Plant Tissue Culture Tested

Application Notes

A common macronutrient used in plant tissue culture.
